Passionate Software Engineering undergraduate at SLIIT with six months of internship experience in full-stack development. Skilled in JavaScript, React, Node.js, Express.js, and SQL/NoSQL databases, with hands-on experience building responsive web applications and integrating RESTful APIs. Comfortable collaborating with cross-functional teams in an Agile environment to develop and maintain software solutions. Seeking an Associate or Junior Software Engineer role to contribute my technical skills while continuing to grow as a developer.

Work Experience

Full Stack Developer Intern - Ceylon X Corporation January 2026 – July 2026

- Developed and maintained responsive HRM and CRM web applications using React.js, Vite, JavaScript, HTML5, CSS3, and Bootstrap.
- Built reusable frontend components and integrated RESTful APIs using Axios with Node.js and Express.js backends.
- Used Git/GitHub for version control, branching, collaboration, and code reviews across team development workflows.
- Tested and troubleshot UI, validation, API, and data-mapping issues using browser developer tools and Postman.
- Collaborated with developers, QA engineers, and supervisors in an Agile environment on feature enhancements and system maintenance.
